## WHY THE FLUENT STRAIN NAMES?

Common strain names are unreliable for describing a particular genetic variant (phenotype) since their chemical expression varies tremendously from grower to grower. **FLUENT** strain names represent the specific phenotype that we grow; offering you a true, consistent representation of our products.

## FLUENT PRODUCT LINES

**BLACK LINE:** High-potency, full spectrum THC products

**THC - RED LINE:** Full spectrum THC products

**BLEND - PURPLE LINE:** A combination of various full spectrum CBD:THC ratio products

**CBD - BLUE LINE:** Full spectrum CBD, low-THC products
